

Dear Parents:

As you may have heard the CDMHA has introduced a new position to teams – Parent Volunteer Coordinator (PVC).

In the next few days your child's coach will ask a parent on your team to take on this role if a PVC has not already been chosen.

The PVC is your team's contact person for your own fundraising endeavors, social events etc. Your PVC is also CDMHA's point of contact when our organization needs volunteers for events such as the upcoming Koocher Memorial Tournament. When volunteers are needed, the PVC invites parents on his or her child's team to lend a hand. We have an excellent group of parents and we believe many would be willing to give a small amount of their time if they are asked.

Parent volunteerism is vital to our organization's success because it helps keep registration costs low. Compared to other centers our size with Double B hockey, our fees are much lower. This is in large part due to CDMHA fundraising efforts.

Regardless of whether a player is in House League, Rep or AE we are all one family. All fundraising goes into the same account which is utilized by everyone registered in CDMHA. For example, last month CDMHA hosted a Rep tournament and most of the volunteers came from Rep teams. Money raised by that event went into CDMHA's general account to be used by all registrants.

With help from parents who give just a little of their time to support their child's team and CDMHA events, we can continue to deliver top-notch and cost-effective hockey programs to all players.

Sincerely,

CDMHA Executive
